STAYS

Duo Stay

The Duo Stay can be used as a lid stay or a drop down flap stay. Easily adjustable from 0kg to maximum capacity by using an allen key. Suitable for wooden doors. The instant grip action of the stays braking mechanism does not allow sagging when the lid is let go by the user. Suitable for up to 6kg.

UST366701061 Nickel Plated

Box Lid Stay

Screw mounted to side panel and lid. Non-handed design. Spring holds lid in position. For heavier lids two stays should be used.

UST862000003 Black
UST862000004 White

KD FITTINGS

Fuerte System Housing

A heavy duty steel dowel links the headboard to the side rail, and is locked into position in the side rail by simply turning an internal worm gear in the housing by means of a 6mm allen key.
